

LIFT

MOVING & STORAGE

COMPANY

Lift NYC Moving & Storage is a full service provider of all your moving needs. We pack, wrap, move and store anything and everything. Exceptional customer service is our number one priority as we know we're only as good as our last move, and reputation is everything.

HISTORY

Lift NYC Movers began with three friends and a truck. We knew we couldn't compete with other firms based on size, experience, or special offers. Our hard work and good attitudes gave us reputation as a top notch moving company, which has allowed us to grow by leaps and bounds. We routinely do moves in and out of luxury buildings, have several partnerships with staging and storage companies, store full houses worth of items and make trips up and down the Eastern seaboard.

PARTNERSHIP

Staging can be a logistical nightmare, we know because we have been working with some of New York's largest and most exclusive firms, as well as several smaller companies. The ability to change plans at the drop of a dime and juggle several projects at once are how we've won over the stagers we work with. Flexibility is key, and coming up with a solution to any problem that arises is our goal.

PROTECTION

When wrapping furniture for storage, not just any old style will do. Every piece of upholstered furniture gets a layer of shrink wrap, then heavy duty moving blankets, followed by a final layer of shrink wrap. This is done in order to keep furniture clean from moving blankets and to prevent indentations from tape that may happen if items are left wrapped up. This method, as well as other tricks of the trade are why staging and storing with Lift NYC is a great business decision.

STORAGE

Storage is a multi billion dollar industry, but unless you have the knowledge that your items are safe and secure at all times, peace of mind won't come easy. That's why Lift Storage is ahead of the curve, as we offer state of the art facilities with plenty of space for every item you may need to store. We only charge for the items you have, so no more paying for half empty rooms like you would at a traditional storage facility.

EQUIPMENT

We sell a range of boxes and packing material that will aid in keeping your items safe and together. We offer full packing and unpacking services on all of our jobs, as well as box delivery in advance of your move day if requested. All of our trucks are equipped with enough materials to pack up your items on the day of the move as well, so last minute changes are not a problem. Blanket rentals are also available upon request.
